karandave503@gmail.com | +91 9429584270

## SKILLS

### PROGRAMMING

Fluent:

- Javascript • C++ • Css • NodeJs
- HTML • MongoDB • Sass
- Git • Firebase

Frameworks:

- ReactJs • Express • TailwindCSS
- Bootstrap

Familiar:

- Python • Typescript • NextJs

### SOFT SKILLS

- Teamwork
- Active listening
- punctuality

## COURSEWORK

### UNDERGRADUATE

Data Structures and Algorithms  
Object Oriented Programming  
Web Development  
Operating Systems  
Cloud Computing  
Web Development  
Database Management Systems

## EDUCATION

### SILVEROAK UNIVERSITY

BACHELOR OF VOCATION

Pursuing | Gujarat, IN

### RADINT SCHOOL OF SCIENCE

12TH SCIENCE

May 2021 | Gujarat, IN

### SILVER BELLS

10th 2020 | Gujara, India

## HOBBIES

Reading Books

Playing Chess

Watching Sci-fi series

## PROJECTS

### ANMOL SILVER JEWELLERS | TEAM PROJECT

15/5/23 – 5/6/23

- My role as Front-End Team Leader in this project allowed me to contribute significantly to the creation of a high-performance and visually appealing e-commerce platform.
- Led the development of a dynamic and responsive ReactJS-based UI with Tailwind CSS, incorporating performance optimizations like React Skeleton and lazy loading.
- Website Url: [demo.anmolsilverjewellery.com](https://demo.anmolsilverjewellery.com)
- TechStack : Redux, ReactJs, Php, SQL, Tailwind CSS, s3 Bucket

### RAMA IMAGE GENERATING AI | PERSONAL PROJECT

22/8/23 – 30/8/23

- Successfully developed and launched a fully functional AI-powered image generation website, showcasing technical proficiency and problem-solving skills.
- I implemented Cloudinary storage to optimize image loading speed around 45%, enhancing the website's performance and user experience.
- Integrated OpenAI API keys to harness powerful artificial intelligence capabilities for image generation.
- Website Url: [rama-ai.vercel.app](https://rama-ai.vercel.app)
- TechStack : ReactJs, Nodejs, Express, MongoDB, Tailwind CSS

### YOUTUBE CLONE | PERSONAL PROJECT

20/12/23 – 5/1/24

- I developed a YouTube clone using cutting-edge technologies, including ReactJS for the frontend, Node.js and Express for the backend, and MongoDB for database management.
- I implemented user authentication using Google Auth through Firebase, enhancing the application's security and user experience. Also implemented video and image upload functionality using Firebase Storage, enabling users to seamlessly share and manage multimedia content on the platform
- Website Url: [MyTube.vercel.app](https://MyTube.vercel.app)
- TechStack : ReactJs, Redux, NodeJs, Express, MongoDB, Tailwind CSS, Firebase

## EXPERIENCE

### JSTECHNO | REACTJS INTERN

May 2023 - August 2023 | Gujarat, IN

- Contributed to the development of a ceramic website project, focusing on the frontend aspects..
- Implemented React Skeleton to optimize the loading experience, ensuring a smoother UI transition.
- Applied Tailwind CSS for efficient and consistent styling, maintaining a clean and modern design.
- Resolved frontend-related issues promptly, ensuring a bug-free and user-friendly experience.
- Implemented Framer Motion for seamless and interactive animations on the frontend.
